

Coma Llarga - Binibona

Ruta Monnàber Nou – Coma Llarga - Binibona

The Tramuntana mountains quite naturally, from the inside, absolutely authentic. You will experience one of these indescribable excursions, in the heart of the Tramuntana. To Wild Majorca.

12,35km atural discovery by ancient forests

INFORMATION

This beautiful route through a rarely visited part of the Serra Tramuntana is quite an experience. The Mediterranean forest becomes greener and denser as we slowly ascend by the down the creek bed of the torrent Carrós. The mountain pass `Como Llarga` literally is a peak of the hike, from here we descend to the valley of the remote village of Binibona which counts less than 30 inhabitants. An easy-going gravel road takes you through ancient olive and carob groves back to the Monnàber estate. For people with an adventurous attitude and good physical shape can opt to climb the impressive crest of Sa Cappella Blava from waypoint number M 041.
